

ASC Program Fee Refund Policy

The cost to operate a full-time athletic program is quite high. Our primary expenses are fixed and they are largely based on the number of athletes registered in the program. Yearly program fees only cover a portion of the programs yearly expenses and various other income generating avenues are utilized to make up the shortfall and to keep program fees as low as possible. These income generating opportunities may or may not occur within each yearly operating cycle.

ASC has adopted the policy whereas athlete monies (program fees) are spent first. In the case where an athlete chooses to leave the program mid-season they will only be refunded that portion of their program fees as per the schedule below. Should an athlete be injured mid-season but the athlete is able to return to training within the season we would still consider them to be part of the team and as such the staff would assist the athlete in finding treatment for the injury as well as assisting the athlete with their recovery as such no refunds or credits would be applicable.
